Is Disease a Crime?

Not very long age, a popular magazine blished an editorial article in which e writer asserted, in substance, that all sease should be regarded as criminal riain it is, that much of the sickness d suffering of mankind is due to the hatton of certain of Nature's laws. It to say that all sickness should be grarded as criminal, must appeal to ery reasonable individual as radically

wrong.

It would be harsh, unsympathetic, cruel, yes eriminal, to condemn the poor, wank, over-worked housewife who stake under the heavy load of household care and burdens, and suffers from weaknesses, various displacements of pelvic organs and other derangaments peculiar to her sex.

Exercises bearing of children, with its ex-

nesses, various displacements of pelvic organs and other derangements peculiar to her sex.

Fracuent bearing of children, with its exacting demands upon the system, coupled with the care, worry and labor of rearing a large family, is often the cause of weaknesses, derangements and debility which are suggivated by the many household cares, and the hard, and newer-woulding work which its mother is called upon to perform. Dr. Pierces, the maker of that world-famed remody for woman's yeardlar weaknesses and ills—Dr. Pierce's Favorite Prescription—says that one of the greatest obstacles to the ourse of this class of maladies is the fact that the poor, over-worked housewife can not get the needed rest from her many household cares and labor to crable her to scrupe from the use of his "Prescription" its full benefits. It is a matter of frequent experience, he says, in his extensive practice in these cases, to meet with those in which his treasment fails by reason of the patient's inability to abstain from hard work long enough to be cured. With those suffering from prolabous, anteversion and retroversion of the uterus or ther displacement of the womenly organs, it is very necessary that, in addition to taking his "Favorite Prescription" which developed and the patient observe these rules and the "Favorite Prescription" will do the rest.

Dr. Pierce's Medical Advisor is sent free on receipt of stamps to pay expense of malling only, Bend to Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps for paper-covered, or 31 stamps for doth-bound. If sick consult the Doctor, free of charge by letter. All such communications are held sucredly confidential.

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in its self, actually diseased. It is almost always a hidden tiny little nerve that really its all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fall, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. shoop's Restorative has in the past done so much for weak and ailing Hearts, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts, Dr. Shoop's Restorative this sopular prescription—is alone directed to these weak and wasting nerve centers. It builds; if strengthens; it offers real; genuine heart help.

If you would have strong Hearts, strong diagration, strengthen these herves—re-establish them as needed, with

TRAIN HELD UP.

A Missonri Pacific passenger train which left Pittsburg, Kans., at 7:20 yesterday evening was held up by two men in disguise, and Lou Jeff, a negro miner, employed at camp 31, of the Central Coal and Coke Company, was killed be-cause he protested, and W. L. West lake, of Toledo, Ohio, who, with his wife and two children, had been visiting relatives in Kansas, was shot through the hand by a stray shot that had been

fired at the negro.

There were few passengers on the train, and the robbers got about \$100 in cash and a few watches and revolvers.

The men were disguished only with false mustaches and goatees.

They boarded the train at Pittsburg and began working the train as it passed the Kansas City Southern Railroad shops. They commenced in the smoking car. One robber walked ahead with a large revolver in either hand, and quietlarge revolver in either hand, and quietly asked the passengers to 'sbel out'
to the man behind, who was closely
following. They were not far behind
the train auditor, and followed him into
the day coach. When they came to Jeff
in the day coach, he at once grasped the
idea that it was a boid-up, and after the
auditor had passed them He drew a
revolver and shot at the foremost robber,

The most eroinent medical scientists are unanimous in the conclusion that the generally accepted limitation of buman life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonio medicine that revitalizes every organ of the body. Guaranteed by E. S. Leadheater, & Sons, druggists.

Murder Mystery in Norfolk.

that the men and boy were drowned The bodies of the Arnolds came to the surface yesterday. The skull of the boy is crushed as if by a club and his left arm is broken. Perry's right arm is broken and his body is bruised. The coats of both are missing. The remain-ing clothing is torn, evidence, the police think, of a struggle, between them and their foes. Nothing of value was found on the hodies of the men, and the police believe that the men and boy murdered and robbed and their bodies thrown into the creek to conceal the crime. So far no clew has been

The trio had been to Norfolk the night they met death to make some Saturday night purchases. Nobody saw them embark, and no cries for help were heard.

northwest, Washington, forced him from the place last night, Frank S. Halsey, aged twenty-five, of Rapidan, Va., retaliated and proceeded to fire into the doorway of the building from the street. Early in the evening the young man had been put out of the establishment because of the disturbance which he caused, and made his way to his hotel, nearby. Then he procured a revolver, and returning to the restaurant again tried to enter. On being refused, he took his position is the middle of the sidewalk and deliberately fired through one of the glass doors of the building, the builet taking effect in the ceiling.

It's a pleasure to tell our readers about a Cough Cure like Dr. Shoop's. For years Dr. Shoop has fought against the use of Opinn. Chloroform, or other unsafe ingredients commonly found in Cough remedies. Dr. Shoop it seems, has welcomed the Pure Food and Drug Law recently enacted, for he has we's ed along similar lines many years. For near ly 20 years Dr. Shoop's Couga Cure containers have had a warning printed on their against Opium and narcotic poisons. He has thus made it possible for mothers to protect their children by simply insisting on having Dr. Shoop's Cough Cure. Sold by E. S. Leadbeater & Sens, druggists.
